

## Lore of SuperHero.Game

The team of SuperHeroes are the incarnation of good and justice while the legion of DoggyBears represents the wicked hunters. The generational duel between SuperHeroes and DoggyBears will unfold in the DApp realm amidst you and I.

The SuperHeroes defeated the DoggyBears in the last universal war. Remnants of the DoggyBears fled to an Abyss full of crystal shards, \$CrystalShards is a rare resource in the metaverse. A plan is hatched by the DoggyBears to make The Abyss their new base and start mining the crystal shards. A high amount of \$CrystalShards could be used as an energy source to summon a copy of the Doggybear from the Parallel Universe to increase the number of legions to fight against the SuperHeroes. However, the team of SuperHeroes have a small chance to subjugate the DoggyBears and SuperHeroes summoned from the Parallel Universe and make them part of the SuperHeroes team.

If the location of The Abyss is discovered by the team of SuperHeroes, the remaining DoggyBears will be caught. To prevent that from happening and to prepare for the Final Battle, DoggyBears inside The Abyss will emancipate some \$CrystalShards all around The Abyss to distract the SuperHeroes, as they will be busy mining the \$CrystalShards, buying time for the DoggyBears to mine the crystals. The SuperHeroes could catch the DoggyBears as they leave The Abyss, the DoggyBears will have to sacrifice the \$CrystalShards they mined to escape. SuperHeroes, on the other hand, will prioritize on collecting the \$CrystalShards, as \$CrystalShards gives them more power to fight against the DoggyBears.

Do you want to be a SuperHero stably earning \$CrystalShards risk-free, or do you want to be a Doggybear hunter, risking your life to mine \$CrystalShards? Invite friends to play SuperHero.Game and enjoy a maximum of 5-tier rewards and build a superhero community. A metaverse superhero game, it is in your hands to dictate how it should be played.

## Introduction to SuperHero.Game

SuperHero.Game is based on the token economy for NFT's risk protocol. It shows the possibility of interaction between BSC BEP-20 and BEP-721. Firstly, your NFTs can get you other NFTs (BEP-721 tokens). You might get more token the rarer your NFTs.

SuperHero.Game is also the world's first Play and Earn multi-level marketing game, we believe that a goodgame economy model requires a large number of players to join, and that multi-level marketing has always been a mature business model, allowing players to be more than willing to share SuperHero.Game naturally. We even applied the "automatic marketing" model. You will have the opportunity to obtain an additional downline player for free and the player's income will be related to you as long as your SuperHeroes are at Stake. Continuously improving the playability and the value of SuperHeroes. Players are more willing to share SuperHero.Game with the addition of a 5-tier reward system and are even more willing to Stake their own NFT as they can get more rewards from downline players, making the ecosystem more complete.

There are three chapters in this game. The First Chapter revolves around the interaction between SuperHeroes and DoggyBears. We added in The Abyss and Parallel Universe gameplay in the Second Chapter. The Third Chapter will see the Final Battle where SuperHeroes and DoggyBears will stake their available \$CrystalShards as a bet to fight each other. Who will win, the DoggyBears with its huge number of legion or the SuperHeroes because good and justice always prevails? Let us sit back, enjoy and watch it all unfold.

## Rules Summarization of SuperHero.Game

1. There is a total of 60,000 NFTs in this SuperHero.Game. The first 1 ~10,000 NFTs are Generation 0 and cost 0.5 BNB to mint. The remaining 50,000 NFTs are Generation 1, which can only be minted through \$CrystalShards
2. The probability of minting a Doggybear is 90%, Doggybear can Stake in The Abyss and mine up to 10,000 \$CrystalShards daily, you can choose to Claim 80%

of the \$CrystalShards at any time and emancipate the remaining 20% out randomly around The Abyss to the SuperHeroes.

3. There will be a 50% chance for the Superheroes to capture the DoggyBears if the DoggyBearsUnStake (Bringing up to 2 days' worth of \$CrystalShards with them) from The Abyss. The DoggyBears will have to give up all the collected \$CrystalShards in exchange for their own safety
4. There will be a 10% chance for the SuperHeroes to subjugate a newly summoned DoggyBears from the Parallel Universe. The subjugated DoggyBears will be assigned to a random SuperHeroes address instead of to the minting players.
5. The probability of minting a SuperHero is 10%. SuperHeroes have Power Ratings ranging from 5~9. Higher Power Rating commands a higher portion of the 20% \$CrystalShards that the DoggyBears emancipate to the Staking Superheroes when Claiming, it also gives a higher probability to gain subjugated DoggyBears and Superheroes that have been summoned from the Parallel Universe.
6. Players participate and watch the exciting battles in the metaverse from Genesis's point of view. To attract more Genesis to participate, players can join through invitation link and become another player's downline in order to start minting NFTs. If players join without using the invitation link and there is no SuperHero at Stake around The Abyss at the time of joining, the company will assign a Genesis Block. But if there is a superhero at Stake in The Abyss, the players will be assigned to random SuperHeroes according to their Power Rating as downline.
7. The game has a 5-tier reward system which are L1(5%), L2(4%), L3(3%), L4(2%), L5(1%). Additional \$CrystalShards could be obtained whenever your 5-tier downlines. Claim the rewards while your NFTs are on Stake, regardless if its SuperHero or DoggyBear is at Stake in The Abyss. The additional rewards will be

included in your Stake reward. The additional rewards will not be rewarded if the upline is not at Stake in The Abyss when the downline decided to Claim.

### SuperHero.Game Contract Address

- DoggyBear/ SuperHero NFT: 0x1fD19acD341032Af3D059B9E386Ee22a8b3C83cC
- Staking: 0xb8cB53066886df7197BE409C9EFB342EC91e5Fe9
- CrystalShards Token: 0x97e503Cb3C7a5e6dE61BFFdBf765902A2A3BB3B3

### Rules of Opening Loot Boxes in SuperHero.Game

-There are only 10,000 Generation 0 and 50,000 Generation 1.

- Token ID      Price
- 1 to 10,000    0.50 BNB
- 10,001to 20,000    20,000 \$CrystalShards
- 20,001 to 30,000    35,000 \$CrystalShards
- 30,001 to 40,000    50,000 \$CrystalShards
- 40,001 to 50,000    65,000 \$CrystalShards
- 40,001 to 60,000    80,000 \$CrystalShards

Whitelist Mint price will be set at 0.15BNB

The total cost of minting all existing DoggyBear and SuperHero NFTs is up to 2,500,000,000 \$CrystalShards

### DoggyBear NFT

The chance of minting a DoggyBear is 90%, every DoggyBear has its unique characteristics, below are the actions they can do.

Actions	Description	Risk
Enter The Abyss (Stake)	Accumulate up to 10,000	No Risk

	\$CrystalShards daily  (Calculated proportionally until the next day)	
Collect \$CrystalShards (Claim)	Obtain 80% of \$CrystalShards from your DoggyBear	To protect the discovery of The Abyss by the Superheroes, 20% of the \$CrystalShards are emancipated to surroundings of The Abyss for SuperHeroes to collect. The sharing of \$CrystalShards will be based on the Power Ratings of all SuperHeroes around The Abyss
Leave The Abyss (UnStake)	DoggyBears will leave The Abyss with \$CrystalShards. It is only possible to do this after mining 2 days' worth of \$CrystalShards	There is a 50% probability for your accumulated \$CrystalShards to be taken away by SuperHeroes. The sharing of \$CrystalShards will be based on the Power Ratings of all SuperHeroes around The Abyss

### SuperHero NFT

The chance of minting a SuperHero is 10%, every SuperHero has its unique characteristics and has a Power Rating range of 5~9. The higher the Power Rating:

- SuperHeroes are able to command a higher portion of \$CrystalShards from The Abyss
- A higher chance of successfully subjugating a new DoggyBear or SuperHero

Actions	Description	Risk
Minting a new character using \$CrystalShards	The probability that the NFT is actually a SuperHero is 10%	There is a 10% probability for the newly summoned SuperHero or DoggyBear to be subjugated by at Stake SuperHeroes with Power Rating directly relates to the success rate.

Example:

SuperHero A have a Power Rating of 8, SuperHero B have a Power Rating of 6. When they are at Stake simultaneously:

- If a total of 70,000 \$CrystalShards is accumulated as tax, SuperHero A will receive 40,000 \$CrystalShards, SuperHero B will receive 30,000 \$CrystalShards
- If a new DoggyBear has been successfully subjugated, SuperHero A will have a probability of 57% to own it, SuperHero B will have 43%.

Action	Description	Risk

Enter The Abyss (Stake)	Earn 20% of all \$CrystalShards collected in The Abyss	No risk
Collect \$CrystalShards (Claim)	Claim \$CrystalShards from SuperHeroes at Stake	No risk
Leave The Abyss (UnStake)	Claim \$CrystalShards from SuperHeroes at Stake	No risk

### SuperHero.Game 5-tier Reward

01. If the player joins the game through invitation link, the owner of the invitational link will be the player's upline. The player can only mint and Stake after completing the Join process.

02. Company will allocate a Genesis Block (an address specified by the company for rewarding purpose) as an upline if the player did not join the game through invitation link and at the same time there is no SuperHeroes Staking in The Abyss.

03. Upline will allocate the player to Staking SuperHeroes as downline according to their Power Ratings if the player did not join the game through invitation link and at the same time there are SuperHeroes Staking in The Abyss.

04. When your NFT (regardless of SuperHero of DoggyBear) is in Staking state, every income that the downline Claim could allow you to obtain additional \$CrystalShards (Example: first-tier downline obtained 10,000, so you will get  $10,000 \times 5\% = 500$  additional \$CrystalShards)

level 1 5%  
level 2 4%  
level 3 3%  
level 4 2%  
level 5 1%

05. Claim have to be selected to get the \$CrystalShards in this 5-tier rewards system. This is purely income for the players and is not affected by the rules of SuperHero.Game (Free downline shows that every player needs an upline and be encouraged to mint a SuperHero)

Hence there are two ways to join the game, either through friends' invitation link, allowing them to earn rewards or skip the invitation link and join directly, however the system will allocate you to any Staking SuperHeroes as downline.

### **SuperHero.Game Token \$CrystalShards**

The biggest crystal shard supply is 50,000,000,000 \$CrystalShards:

One \$CrystalShards release from the community are equivalent to one \$CrystalShards release for the project management at the ratio of 1:1. This \$CrystalShards will be used for the community reward for user who are actively promote us on social media, hard cap at 10,000,000,000 \$CrystalShards.
